PROJECTS

Photography Management System

Team Size: 4

Key Skills: HTML CSS JavaScript

A Photography Management System is an easy-to-use online tool that helps photographers keep track of their work, connect with clients, manage bookings, and handle the day-to-day tasks that come with running a photography business. It's like having a personal assistant that organizes everything in one place, so photographers can focus more on their craft and less on the paperwork.

Hospital Management System

Team Size: 4

Key Skills: HTML CSS JavaScript

The website is designed to be interactive, giving users easy access to information about the hospital's expertise, experience, and care. Patients can stay informed with daily updates on their queries and explore detailed profiles of the doctors.
